

Environmental Policy

John Robson Metals is an environmentally conscious Company and as such we acknowledge the potential environmental impact that our operations may have on the environment. Our activities include specialised dismantling and demolition service of high voltage sub stations and the recycling of heavy electrical equipment. These operations are supported by an in-house vehicle & plant maintenance department and engineering facilities.

Top management endorses this policy and ensures it is compatible with the context and strategic direction of the Company. Top management in co-ordination with the Environmental Management Representative are accountable for the effectiveness of the environmental management system (EMS) and are responsible for ensuring that it is communicated, understood, implemented and maintained at all levels within the Company and ultimately, that it achieves its intended outcomes.

Top management promotes and is committed to continual improvement of the EMS to enhance environmental performance. The company is committed to establishing & maintaining a framework which directly relates to our environmental objectives. The company will assess and develop these objectives and the elements below which form the basis of the objectives set. It is our policy to identify & review: -

- Internal issues within the organisation.
- External issues within the organisation.
- Those interested parties which can impact or be affected by the company's operations in terms of the environment.
- Environmental risks to the company based upon the first three points identified.
- Potential opportunities which could benefit the environmental performance of the company based upon the first three points identified.
- Company environmental objectives based upon the risks and opportunities identified.

The company annual targets for improvement in environmental aspects are based upon the company objectives set. These are maintained as part of the internal auditing, monitoring and management review processes. The results of which are communicated to interested parties, where appropriate / on request.

Top management and staff are committed to ensuring that the Company:

- Complies with all compliance obligations, where these relate to our environmental aspects.
- Provides employees and others with the resources needed for the EMS, including support, direction and encouragement to fulfil the requirements, commensurate with their role.
- Works towards certifying against the environment management standard BS EN ISO 14001, as defined within the scope of our EMS.
- Strives to integrate the EMS into all business processes.
- Protects the environment, prevents pollution and meets other specific relevant commitment(s).
- Follows the waste hierarchy, where technically, environmentally and economically practicable (TEEP) and appropriate to meet the necessary quality standards of the scrap metal industry.
- Co-ordinates business transport so as to reduce consumption.
- Uses energy, water, materials and other natural resources as efficiently as possible, giving particular regard to the long-term sustainability of consumable items.
- Ensures that the environment is considered in the procurement of goods and services.
- Gives appropriate consideration for the environment in the goods and services we provide to customers.
- Works with local businesses, neighbours, partners or suppliers to encourage commitment and improvement in our local environment.
- Supports other relevant management roles to demonstrate leadership as it applies to their areas of responsibility.

This policy will be communicated to all employees and sub-contractors. They are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to the environment. This policy will be reviewed annually by top management and where deemed necessary will be amended and re-issued. Previous versions of this policy will be archived and are available upon request.
